30-703 Kraków

LETTER OF REFERENCE

ELMODIS Sp. z o. o. with its registered office in Kraków 30-703, ul. Jana Dekerta 24, successfully implemented the Elmodis system aimed at upgrading the operational efficiency of fans driven by asynchronous alternating current motors including motors controlled with frequency converters.

The solution proposed by Elmodis enables access to diagnostic data of the monitored machines and prediction of damages. ELMODIS Sp. z o. o. performed the commissioned works in a reliable and timely manner according to the concluded agreement, in line with the technical specification set forth in the technical documentation. The performed works enabled us to make a decision on further cooperation in implementing the system into PGNiG SA plants.

Yours faithfully
